

## ***Custom Products***

## What are Custom Products?

**Parker – supplier of your wishes – your special is our standard!**

**Your idea is our Know-How!**

### Profit of the advantages of our Custom Products:

- Slogans like “single source” or “vendor-reduction” are getting more and more important in industry.
- worldwide availability
- Parker TFDE Custom Products is able to offer almost every type of connector, which is not to be found in our catalogues or price-lists.
- We produce one piece and upwards.

**Following examples could be a suggestion, how your problems could be solved in the future.**

#### Jump sizes

One connector can replace several combinations.

- to shorten assembly-time
- to reduce possible leaks and their costs
- to reduce stock

#### Extra-long connectors

to avoid long tubes  
or adapter-combinations

## Unconventional configuration of ends

tube and port end  
eg: to connect metric and inch tube ...

## Restricted orifice

orifice  $\times 0,3$  mm  
(technical clarification about length  
of reduced bore in accordance to  
material necessary)

## Re-Work of standard connectors

according to customer-instructions and drawings  
(shorter threads, bleed adapter, female thread  
port for test-points gauge connectors)

## Brazed parts

for most unusual variations  
procedure: silver-brazing

## Manifolds

with fixing bores according to customer instructions

## Filter Fitting

Also possible with your filters.  
(We would ask you to let us know required dimensions of your filter)

## Milled parts

for narrow spaces

## Flange connectors

ISO 6162 (SAE J518),  
according to customer instructions, drawings, etc.

**Tubes and tube bends according to your specification possible on your request (incl. preassembled ends) – please let us know length, bend radia, etc.**
